

### Training Model

#### Our commitment to teachers:

Your time is precious. That's why we're devoted to making the most of it by providing tailored complementary training on our product, conveniently delivered in-school or online, to suit your busy schedule. Choose us, and we'll ensure every moment invested benefits you and your students.

#### Math department presentation:

- On-site presentation at your school
- Comprehensive overview of MHS
- Showcases how MHS can enhance your teaching
- Opportunity for your department to gauge interest in a complementary pilot with your classes

#### One-on-one training:

- Customized training for each teacher
- You decide what works best for your schedule, teaching style and tech proficiency
- A brief session with our trainers equips you to confidently integrate MHS in your classroom

#### Class setup, handled for you:

- Focus on teaching, not administrative tasks
- We handle all setup for your classes
- Just send us your class lists and we'll get your classes ready to go

#### Classroom launches:

- To maximize benefits, students need to know how it works
- Our training team visits your classes and takes care of this for you
- Our team will guide students on:
  - Logging in
  - Using the student app
  - Completing assignments
  - Creating quizzes
  - Improving grades with assignment retakes

#### Continuous follow up support:

Our team is constantly available to assist you in troubleshooting any issues, integrating new product features, or addressing any other needs you or your students may have. Our support team is just a click away, always ready to help.
